

CALCULO DE ERROR

$$\text{Error } P\% = \left(\frac{\text{Valor Teorico} - \text{Valor Practico}}{\text{Valor Teorico}} \right) * 100$$

$$\text{Error } P\% = \left| \frac{0.02454 - 0.02459}{0.02454} \right| * 100 = 0,2\%$$

$$\text{Error } P\% = \left| \frac{0.03791 - 0.03789}{0.03791} \right| * 100 = 0,05\%$$

$$\text{Error } P\% = \left| \frac{0.04328 - 0.04333}{0.04328} \right| * 100 = 0,11\%$$

$$\text{Error } P\% = \left| \frac{0.04521 - 0.04524}{0.04521} \right| * 100 = 0,06\%$$

$$\text{Error } P\% = \left| \frac{0.04648 - 0.04651}{0.04648} \right| * 100 = 0,06\%$$

$$\text{Error } P\% = \left| \frac{0.04629 - 0.04631}{0.04629} \right| * 100 = 0,04\%$$

$$\text{Error } P\% = \left| \frac{0.045 - 0.045}{0.045} \right| * 100 = 0\%$$

$$\text{Error } P\% = \left| \frac{0.04281 - 0.04282}{0.04281} \right| * 100 = 0,02\%$$

$$\text{Error } P\% = \left| \frac{0.03373 - 0.03381}{0.03373} \right| * 100 = 0,2\%$$

$$\text{Error } P\% = \left| \frac{0.03038 - 0.03026}{0.03038} \right| * 100 = 0,3\%$$
